CMC Car Parking Guidance 2016

Parking Decision Tree

All Residents' parking spaces are <u>permanently reserved</u>

1. Residents should in the first instance park their car(s) in their assigned parking space(s).
2. Any resident cars that cannot be parked in their assigned space(s) should be parked in **visitor spaces**

- **No resident or resident's visitors to park in another resident's designated [numbered] parking space without express permission**
- Resident[s] with visitor[s] to be responsible for their visitors parking
- Visitors prior to arrival should be informed that they must not park in numbered spaces
- All residents that have more vehicles than designated spaces [as set out in a residents' deeds] are asked to be considerate of other residents when parking
- Residents that rent out their property are expected to remove their vehicles from the car park[s] in favour of their tenants
- Residents and their visitors are not permitted to park [or drive] on the communal grass in Car Park 1. If Car Park 1 is full, please use the free visitor spaces in Car Parks 2 and 3. If those are also full, the gym and business car parks are **available for occasional use**

Thank you for everyone's continued consideration when parking

[Agreed by Vote AGM 2016]
