Valuation of Freehold Farmhouse for Insurance purposes 2016-08

I have spoken with 2 firms regarding this issue:-

Kirkby Diamond, 15 Shenley Pavilion, Chalkdell Drive, Milton Keynes, MK5 6LB

01908 678800 – Peter Wilson who quoted a fee of £600 +VAT

Robinson Hall, 118 Bromham, Bedford, MK40 2QN – 01234 362934 David Watling (direct line).

This gentleman was most helpful and was willing to give me over the telephone his view as to what the level of insurance cover we should have in place re "Total Replacement Value. I therefore provided him with the measurements required:-

The ground floor footprint of the farmhouse is 255 sq. meters (25.5m x 10m), it consists of 2 floors with small mezzanines (25 sq. meters) in appts. 13/14, giving a total of 560 sq. m. (including lobby, staircase and landing.)

560sq. m. is 6028 sq. ft. and with rebuild costs of circa £120 sq. ft. = £723k to which must be added prof. fees etc. and contingencies. **It is therefore David's opinion that the insurance cover required re Replacement Value should be in the region of £850k.**

Under the current policy we have a Replacement Value of £768k and therefore on renewal in April of next year we must consider increasing this figure accordingly.

In addition should we wish to have a written professional opinion David would undertake this task for circa £400 + VAT
