

Notice to Policyholder

Camberford Non Standard Real Estate Insurance Policy

01/2026

For insurance policy wording reference: CNSRE/0126/PW

We are delighted to offer you cover under our Camberford Underwriting Non Standard Real Estate insurance product. This product is primarily for commercial customers (non-consumers) who are purchasing insurance for business purposes.

This product is designed to provide cover for clients who require flexibility in the underwriting due to 'non-standard' elements to their individual circumstances. These include but are not limited to:

- Non-standard occupancy
- Irregular occupancy
- Short or long term unoccupancy
- Non-direct lease arrangements
- Type or presence of premises

Please ensure that you read, understand, and consider the cover provided by the Camberford Underwriting Non Standard Real Estate insurance policy, by referring to the following documents:

- Product Summary – This provides a summary of the cover offered by the policy.
 - Terrorism Cover Comparison – This provides a comparison of cover for the two terrorism cover options available.
 - Policy Wording booklet – This outlines the cover offered by the policy and includes pre-contractual and contractual information.
 - Schedule & Statement of Fact document – This details the cover specifically applicable to you.
 - Endorsements – If applicable, these will be shown on your schedule.
-

If you are not clear about anything, please contact your insurance broker or intermediary.

Policyholder Cover Notice

Please note that cover will not continue unless we receive instructions from you, via your insurance broker or intermediary. The instruction to proceed must be made on or before the expiry date of the period of insurance (renewal date). If we do not receive instruction to continue cover then your cover will cease from the expiry date shown on your policy schedule and you will have no cover from that date. It is your responsibility to ensure that you have arranged replacement cover to ensure that there are no breaks in cover.

This insurance product is underwritten by insurers as noted on the schedule (see 'Your Insurers') under a facility managed by Camberford Underwriting.
