

MINOR DOMESTIC ELECTRICAL INSTALLATION WORKS CERTIFICATE

Installer's Reference Number

IRN/ 1120

Issued in accordance with British Standard 7671 – Requirements for Electrical Installations by a Registered Domestic Installer registered with ELECSA, Certsure LLP, Mansfield Business Centre, Ashfield Avenue, MANSFIELD NG18 2AE.

To be used only for minor electrical work which does not include the provision of a new circuit

PART 1: DETAILS OF THE MINOR WORKS

Client:

EILEEN DAVIS

Date minor works completed:

17-12-15

Description of the minor works:

OUTSIDE LIGHT

Details of departures, if any, from BS 7671 (as amended):

NONE

Location/address of the minor works:

1 THE COURT YARD
LISCOMBE PARK
LUTON

PART 2: DETAILS OF THE MODIFIED CIRCUIT

System type and earthing arrangements:

TN-C-S

✓

TN-S

TT

TN-C

IT

Protective measure(s) against electric shock:

ADS

Overcurrent protective device for the modified circuit:

BS(EN)

60898

Type

B

Rating

6

A

Residual current device (if applicable):

BS(EN)

61008

Type

$I_{\Delta n}$

30

mA

Details of wiring system used to modify the circuit:

Type

A

Reference method

B

csa of lives

1.0

mm²

csa of cpc

1.0

mm²

Where the measure for protection against electric shock is ADS, insert maximum disconnection time permitted by BS 7671:

0.4

s

Maximum Z_s permitted by BS 7671

7.28

Ω

Comments, if any, on existing installation, including adequacy of earthing and bonding arrangements (see Regulation 132.16):

OK

PART 3: INSPECTION AND TESTING OF THE MODIFIED CIRCUIT AND RELATED PARTS

Confirmation that necessary inspections have been undertaken	✓	(✓)
Confirmation of the adequacy of earthing	✓	(✓)
Confirmation of the adequacy of protective bonding	✓	(✓)
Confirmation of correct polarity	✓	(✓)
Circuit resistance: $(R_1 + R_2)$	1.0	Ω or R_2
Maximum measured earth fault loop impedance, Z_s	1.10	Ω

Insulation resistance:

(In a polyphase circuit, record the lower or lowest value, as appropriate)

Line/Line	N/A	MΩ	Line/Earth	7500	MΩ
Line/Neutral	LIM	MΩ	Neutral/Earth	7500	MΩ
RCD operating time at $I_{\Delta n}$ (if RCD fitted)				28.7	ms
RCD operating time at $5I_{\Delta n}$, if applicable				28.7	ms
Test button operation satisfactory				✓	(✓)

Agreed limitations, if any, on the inspection and testing:

FUNCTIONAL IR LIVE/NEUTRAL

Instrument Serial No(s):

1993039

PART 4: DECLARATION

I CERTIFY that the minor electrical installation works, as detailed in Part 1 of this certificate, does not impair the safety of the existing installation, that the said works have been designed, constructed, inspected, tested and verified in accordance with BS 7671, amended on the date shown* and that, to the best of my knowledge and belief, at the time of inspection, the works complied with BS 7671 except as detailed in Part 1 of this certificate.

The results of the inspection and testing reviewed by the Qualified Supervisor

* 2015.
