CMC - The Courtyard Management Company

Following our letter to you posted through your door on 24th October 2016, please find enclosed an invoice for your property's share of the Bio Filter to which your property is connected. There are 21 properties connected to the biofilter in total and yours is a 1/21st share of the cost of maintaining/servicing this facility for the past year. The invoice is less than our estimated costs of £267.34 that we shared with you previously. Some works that are required will be carried out in 2017 instead. Unfortunately Bio Digesters' working parts i.e. pumps etc. do have a limited life span so at some time in the future there will be additional costs as and when replacing expensive parts becomes necessary on top of the servicing charges.

In future we propose to correspond by way of email and shall be grateful if you will let us have your email address for this purpose. CMC's email address is **cmcdirectors@hotmail.com**.

A copy of the above invoice is also available on the CMC Bio Filter Portal. You will also find servicing documentation and all invoices that make up all Bio Filter costs for the previous year[s]. There is also previous correspondence from Thameside Homes Limited outlining your legal obligation as regards to paying your properties equal share of all biofilter costs:
