Hi Fergus,

Thanks, that's helpful. Hopefully Anglian Water will get this resolved and the correct tariff applied. If they are not responding, Ofwat does provide guidance on what to do where you believe you may be being overcharged, so we'll be keen to see how this progresses.

Would you also be able to let us know the total volume of water used across the Liscombe Park supply for a recent full year, so that we have an indication of which tariff the site may fall into?

Thanks also for confirming that any backdated refund will be passed on.

The bill you sent us has been paid.

Look forward to your reply.

Kind Regards

Ian R. Woodland

Subject: Re: Water tariff applied to the Liscombe Park supply

Morning Ian,

I have queried the tariff with the water retailer, and we also had the meter changed some time ago. The retailer seems to have no incentive for urgency as this is something we have been trying to sort for some time.

Until such time as they get their act together all I can do is pass on what we are ourselves charged and when the correct tariff is applied and backdated, pass on the refunded balances.

All the best,

Fergus
